

ROCK BITS
9-7/8" S1
IADC Code: 211

GLINIK
DRILLING TOOLS

FEATURES

Bearing Type.....roller, non-sealed
Cutting Structure.....medium milled teeth
Leg Protection.....shirttail hardfacing
Connection.....pin 6-5/8 Reg

DRILLING APPLICATIONS

Designed for drilling in medium-hard formations, and abrasive rocks such as: sandstones interspersed with streaks of quartz, hard limestone or chert, conglomeres, with limestone, ferruginous or silica binder, crystalline dolomites, hematite ores, siderites, limonites, hard shales.

BENEFITS

Drilling costs optimization thanks to the possibility of full intervals drilling.

Flexible use of drill bits for various drilling equipment.

Effective cleaning of the bottom of the hole by using optimal flushing system

Perfect quality/price ratio.
